Karpati Corporation

To whom it may concern,

I Rosa Anastasi wish to thank your company (*Karpati Natural Hair Care*) for its time and effort it has gone to providing us hairdressers with a safer Hair Care range.

I have finally been fortunate enough to have found in particular your Karpati Hair Spray. It has allowed me to continue my profession of 32 years as a hairdresser by not being subjected to toxic ingredients other hair spray's use. It is the only hair spray I will profoundly recommend and use.

I wish I had found your range earlier!

I use and sell your Natural Hair Care range in my salon and am loving it!

Throughout the years I have had serious health problems related to my profession and have to medicate myself daily for my condition.

We are generally lead to believe there is no other alternative. The public wants to look good, but when is paying the price of intoxicifying ourselves enough? We need to look after our health long term.

I have also been informing my hairdressing clients about the safer alternative and they have begun purchasing your product. education is the key for a safer world! Please keep up the good work and I will continue to recommend and use your product.

Thank you again,

Rosa Anastasi
